ABOUT

In my software development journey, which began in 2020, I developed my skills by working on projects in areas such as web design, mobile applications, and object-oriented applications. I'm currently studying Computer Programming, solidifying and documenting this knowledge. I continue to work by being open to innovation, ready for every project, and always ready. Thank you for your appreciation of my writing.

WORK HISTORY

WEB DESING INTERN

Reklam5 - İstanbul - 2023-2024

- My first job, Reklam5, gave me experience and perspective on many software development areas. My seven-month internship there was highly productive, allowing me to improve my web design skills.

SALESPERSON AND WEBSITE DEVELOPER

Protisa - İstanbul - 2024-2024

- Although I only worked here for a short time, I learned a lot about sales. My web design expertise helped my company with online sales.
